What are your community interests (committees, organizations, special activities)? _I am part of an organization called the United Liberty Coalition (ULC) started and based in Oregon. I've been a part of political rallies and meetings with Oregon state senators and legislators on bills that are either taking our liberties away or mandating our liberties out of existence. I've been an HOA president, own a business, and am raising a family in Canby. I have more recently gotten politically involved as a result of tiresome government over reach. Though I'd rather spend my time filling the roles of father, friend, and business owner, I've realized that there is a need for people without agendas to be tangibly involved in the process of local government as well.

What are your major interests or concerns in the City's programs? I am interested in helping ensure that city guidelines are developed, followed, and enforced based on the will of the people of the city of Canby. I would hope that we could work with citizens, businesses, and organizations that have the best interest of our city at heart. I would love to see a balance that can be struck with residential and commercial interests that will ensure a path to prosperity for all.

Reason for your interest in this position: I am looking to start getting involved in local politics to help understand and participate in a well balanced approach to the governing process.

Experience and educational background: I am a double major in the social sciences and music performance from Western Oregon University. _____
