RE Complaint against Superintendent Trip Goodall.

I have been made aware of a “statement” issued on Jan. 13, 2021 by Superintendent Trip Goodall concerning School Board member Stefani Carlson. (Attached)

The statement was apparently made in response to a “media inquiry” although no mention of “media” is made in the statement.

It has been reliably reported that the “media” in question was a local person with a Facebook page.

It has also been reported that Goodall’s statement and attack on Board Member Carlson came *prior* to any discussion with the board member.

In his outrageous and unprofessional attack on Board Member Carlson, Goodall states *“After the event of January 6th in our nation’s capital, all of us should recognize the importance of words.”*

Goodall would have done well to heed his own advice. Furthermore, it would be wise for both Goodall and the board to remember that Goodall works for, and at the pleasure of, the board and not vice-versa. This is something, in his rush to mount presumptuous and arrogant attacks, Goodall seems to have forgotten.

It is both telling and damning that Goodall should reference the events in our nation’s capital while making no mention of the years of leftist violence visited on our cities. And there Goodall exposes his real agenda and intentions.

Goodall’s vicious and self serving attack is directly from the playbook of the Marxists whose violent behavior Goodall so conveniently overlooks while making reference to “events in our capital.”

Let’s end the charade now. Goodall’s mean spirited and cowardly attack on Board Member Carlson was the product of his personal political animus, his fear of having his craven and partisan agenda exposed and his determination to continue to cover up his failures and intention to keep our schools closed despite the critical needs of the children he pretends to serve.

Anyone with even the most passing familiarity with Board Member Carlson knows she is a person of outstanding integrity and character, a valued member of our community and committed to the children of the district in a way to which frauds like Goodall could

never even hope to aspire. Goodall, on the other hand, seems to work tirelessly to avoid accountability and dodge inquiries.

Let me remind you that Mrs. Carlson won her election even *after* having withdrawn from the race without having spent one minute or one dollar campaigning.

Her only media attention were contemptuous and disgusting smear pieces launched against her as a result of her courageous statements in defense of the dignity and safety of Canby students in the face of the radical left's efforts to force young people into dangerous and demeaning situations. That kind of support is something even Goodall should recognize.

As a shareholder in Canby's schools, a taxpayer, and a voter I want to register my absolute disgust with Goodall's malicious and self serving attacks and demand his immediate resignation and replacement with a person of honor.
